**Time for each presenter: 3 minutes + 1 minute for Q & A**

**Judges: Dr. Neeti Makhija, Dr. Vijay Shetty**

Number	Time	Presenter	Title
P1	2.45 – 2.49 PM	<b>Abhinaya Prakashbabu U</b>	Use of Transesophageal echo in guiding for a hybrid VSD closure & MV repair of coincidentally detected cleft mitral leaflet
P2	2.50 – 2.54 PM	<b>Akshay Hari</b>	TEE for Half-Turned Truncal Switch – “It just takes a half-turn for normalcy”
P3	2.55 – 2.59 PM	<b>Amrutha Hari</b>	“Perforated Right ventricular Automated Implantable Cardioverter Defibrillator lead into the Left ventricle- Intervention to be done by Cardiologist or Cardiothoracic surgeon? - Role of Transesophageal Echocardiography”
P4	3.00 – 3.04 PM	<b>Ankitha Medhi</b>	A rare tee finding of a circumferential root dissection causing mechanical aortic regurgitation– a case report
P5	3.05 – 3.09 PM	<b>Arvind Ganapathirayar Palanivelu</b>	Role Of Transesophageal Echocardiography In Surgical Management Of Mitral Arcade
P6	3.10 – 3.14 PM	<b>Dhivya Dhanraj</b>	The Lone Cusp
P7	3.15 – 3.19 PM	<b>Jaffrey K</b>	Mobile RVOT Myxoma plunging in to pulmonary artery in a case of multiple Myxomas
P8	3.20 – 3.24 PM	<b>Kartheek Hanumansetty</b>	Anomalous systemic venous connection masquerade as sinus venosus atrial septal defect
P9	3.25 – 3.29 PM	<b>Kiran Muthu Rajah</b>	Case Series of Sinus of Valsalva Aneurysm with Different Aetiologies
P10	3.30 – 3.34 PM	<b>Prashanth SK Varshney</b>	Lampoon Assisted Transcatheter Mitral Valve In Valve Implantation In The Narrow Left Ventricular Outflow Tract

P11	3.35 – 3.39 PM	<b>Sathesh Kumar P M</b>	Precise Localization of Mitral Valve Pathology in a Child by TEE Leading to Repair Instead of Replacement
P1 2	3.40 – 3.44 PM	<b>Sayandeep Jana</b>	TEE guided thrombosuction in SVC syndrome: a case report
P1 3	3.45 – 3.49 PM	<b>Snigdha Pramanik</b>	16 years girl having dextrocardia, situs inversus totalis, posted for ASD closure describe modified multiplane angles (MP) and probe manipulations to obtain views of different structures in dextrocardia.
P1 4	3.50 – 3.54 PM	<b>Sumedha Harish</b>	RSOV repair – A lifesaving procedure leading to a life threatening complication – Role of TEE in timely and successful management.
P1 5	3.55 – 3.59 PM	<b>Tania Singh</b>	Tiny infant with Tricuspid Atresia - Transposition of Great Arteries for Pulmonary Artery banding with or without mitral valve repair: Epicardial Echocardiography comes to the rescue.
P1 6	4.00 – 4.04 PM	<b>Udit Khajuria</b>	Valve like Subaortic Membrane masking the Shunt across Subaortic VSD
